

## **Notice to all Consignees and CHA. Adverse weather event to impact terminal operations.**

Please be informed that as per the information received from the department of Meteorology Sri Lanka, Port of Colombo may face adverse weather conditions on the 2<sup>nd</sup> of December 2020, due to the impending cyclone. As per latest forecast this condition may last for the period of approximately 24 hours.

This turbulent weather conditions may cause a temporal suspension of terminal operations which will affect the process of receipt/delivery of containers to/from CICT.

CICT has put in place safety measures to ensure the safety of all stakeholders and are keeping in close contact with relevant governmental authorities for timely updates.

Rest assured that all precautions have been taken by CICT and terminal operations will resume no sooner the weather condition return back to normal.

Team CICT will frequently communicate with you regarding any update on this matter and we seek your kind support and understanding during these challenging times. In order to ensure the safety of all stakeholders we urge you to follow all guidelines issued by relevant government authorities.
